## Elevator Pitch

**Definition:** ERP Finance Transformation helps bring greater control, reduce operational/capex expenses and increased transparency around the cost base so that Banks and Insurance companies can understand their drivers and can make better commercial decisions. Transformation involves : Integrating data, processes and analytics to support all aspects of a finance ecosystem— including compliance, costs of maintaining shared services, transparency, control and responding faster to regulatory changes.

**Barriers:** Disproportionately high costs of internal operations associated with financial, management, external, and regulatory reporting—linked to outdated legacy technology systems

### Did You Know?

- We helped a large Japanese bank to modernize their legacy ERP and move them to Oracle cloud and meet their regulatory compliance within tight deadlines
- We helped a major multinational Insurance company modernize its core financial backbone while simplifying operations and enhancing capabilities to meet with regulatory and compliance mandates

**Did You Know?** Capgemini set up a Center of Excellence (CoE) in Bangalore to plan, deliver and operate SAP solution for clients. Involved using SAP S4HANA 1909 (hosted by SAP HEC) to support General Ledger and multi-ledger, FPSL and to support management using IFRS and local GAAP

**Why Capgemini?** Capgemini has a dedicated CoE for ERP with over 36,000+ professionals worldwide having deep banking domain expertise, understanding of regulatory mandates in different regions and technology skills to support the bank's open economy charter.

**External Recognition:** We have been recognized by Gartner as a leader in Oracle and SAP ERP. We received the Oracle Cloud Infrastructure Partner of the Year France award for year 2020. We were rated as the Leader in 2021: NelsonHall in its NEAT evaluation for SAP ERP Cloud Migration Services. Rated as a leader in Leader in IDC MarketScape: Worldwide SAP Implementation Services 2020
