

Connected Payments

Giovanna Henny : 2-3 minutes : 5/16/2024

Jeroen Holscher VP Application Services One

Capgemini supports banks in re-gaining the leadership in payments, generating the efficiencies and flexibility needed to compete in the new landscape. We do this by modernizing the technologies, data & insights capabilities and streamlining the related operations.

ELEVATOR PITCH

OFFER: Connected Payments

CLIENT PROBLEM / CHALLENGE STATEMENT

- The connected payments offer is an umbrella payments transformation offer that improves payments operational efficiency by modernizing the payments technology landscape while streamlining operations, thereby helping clients maximize their ROI while helping their payments positioning
- The main barriers in the payments landscape are profitability concerns, shrinking revenues, rising cost of regulatory compliances, high maintenance cost of payment infrastructure, risks arising due to system related vulnerabilities, and increasing FinTech competition

OUR OFFER AND VALUE PROPOSITION

Payments Hub as-a-service

- Integrated solution to help banks / non-banks take a 'service' view of Payments capability
- Capgemini, takes over payment's capacity (Ops & IT) on a mutually agreed plan, while providing benefits along the journey, while tailoring the roadmap as per client specific context and needs

WE HAVE DONE THIS BEFORE FOR...

- We helped Nordea with their Payments Hub Transformation Journey with Payments package solution (FIS) SEPA RTP solution, Cross border Payment Information Processing, Open Banking Compliance and Domestic Payment upgrade (SWISH)
- We helped HSBC in Corporate Payment channels transformation (interactive / direct)– RTP, digital, entitlements, H2H, PSD2

WHY WE ARE 'SPECIAL'

- Proven platform with excellent credentials across industries, working with best of breed partners (Finastra, Fiserv, Fis, Icon, Volante, AWS, Azure, Google Cloud) with Hands on experience in implementation of Hubs - Finastra, FIS, Volante Application management services on bespoke and COTS solutions
