# PARTNERING TO AMPLIFY MICROSOFT CLOUD ADOPTION FOR FINANCIAL SERVICES

Together accelerating innovation and  
business transformation

April 2022

# 1

## OUR PARTNERSHIP GROWTH

# Capgemini – Microsoft Alliance Overview

## THE PEOPLE

**10000+**

Microsoft Cloud  
Certified  
Consultants

**7000+**

Azure Certified  
Architects

**50000+**

Microsoft Cloud  
Trained Engineers

## THE PARTNERSHIP

**23+ Years as a Microsoft Partner**

## THE RECOGNITION

**Microsoft Awards**

- 2021 Financial Services Partner of the Year
- 2021 Digital Transformation Partner of the Year
- 2021 Analytics Partner of the Year
- 2021 Country Partner of the Year (Spain & Netherland)
- 2021 Microsoft Sustainability Award: France
- 2020 Data Analytics Partner of the Year award (runner-up)
- 2020 Proactive Customer Service Partner of the Year award (runner-up)
- 2020 Capgemini Spain - Partner of the Year in Management Cloud Services
- 2019 Microsoft Partner of the Year SAP on Azure

## THE FS ADVANTAGE

- Dedicated Global Microsoft Cloud CoE
- Microsoft Financial Services IPS (Industry Priority Scenarios) aligned solutions and accelerators
- Proven successes at leading Banks with transformative solutions on Azure

## THE OFFERINGS

To transform client business at  
cloud scale

- Outcome-based DCX at Scale
- E2E Cloud Native Modernization – Business Case to Run
- Core Platforms Transformation – GW, DCT, T24, Cards, Mainframe etc
- Cloud Managed Services and CTOM
- Data & AI Driven Risk & Compliance
- Cyber Defense Management – SIEM, Compliance Monitoring
- Enterprise DevSecOps & SRE Adoption
- Workplace of the Future with M365 – Technology & People Change Mgmt

## Global Capabilities

- **Microsoft Managed Service Provider (MSP)** Azure Expert
- **Cloud Solution Provider (CSP)** with global Center or Excellence
- Involved in the **Cloud Early Adopter** programs and **Azure Advisory Councils (DevOps, SAP, Security)**
- Dedicated Microsoft Cloud Solution Architects (**CSAs**) & access to Global Black Belts

## GOLD COMPETENCIES

**validated by Microsoft**

- Application Development
- Application Integration
- Cloud Business Applications
- Cloud Platform
- Cloud Productivity
- Collaboration and Content
- Communications
- Data Analytics
- Data Platform
- Datacenter
- DevOps
- Enterprise Mobility Management
- ERP
- Messaging
- Project and Portfolio Management
- Security
- Small and Midmarket Solutions
- Windows and Devices

**KEY ACCELERATORS**  
**differentiated IP & Assets**

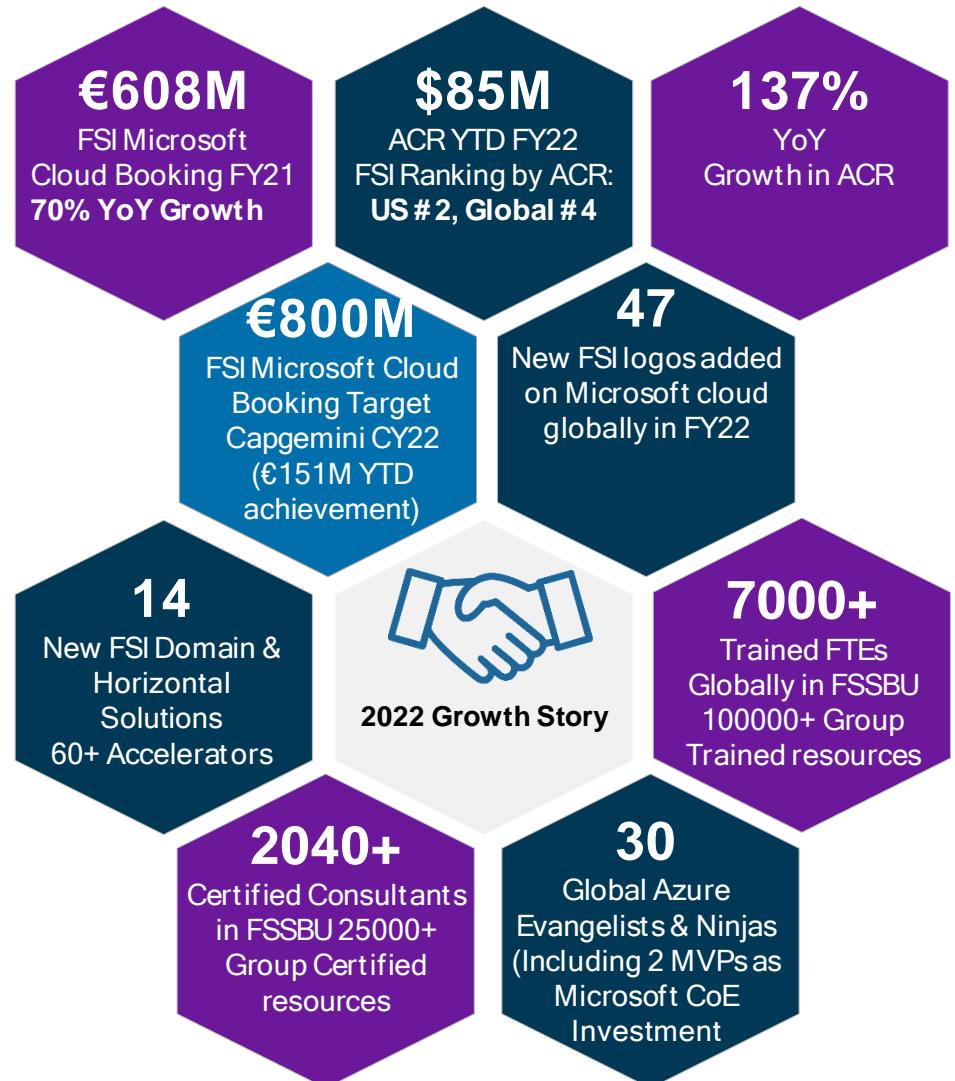

**CloudBOOST**  
Landing Zones

**API Center**  
Framework

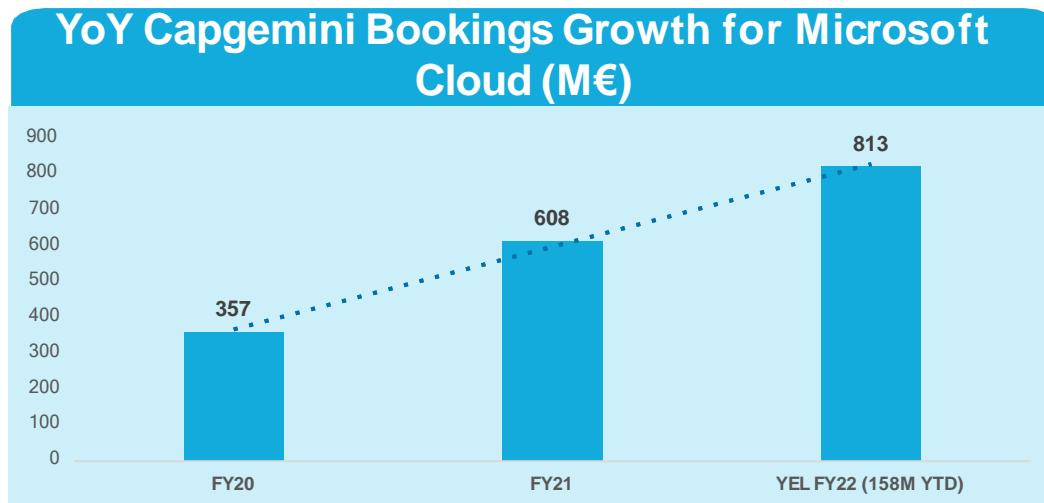

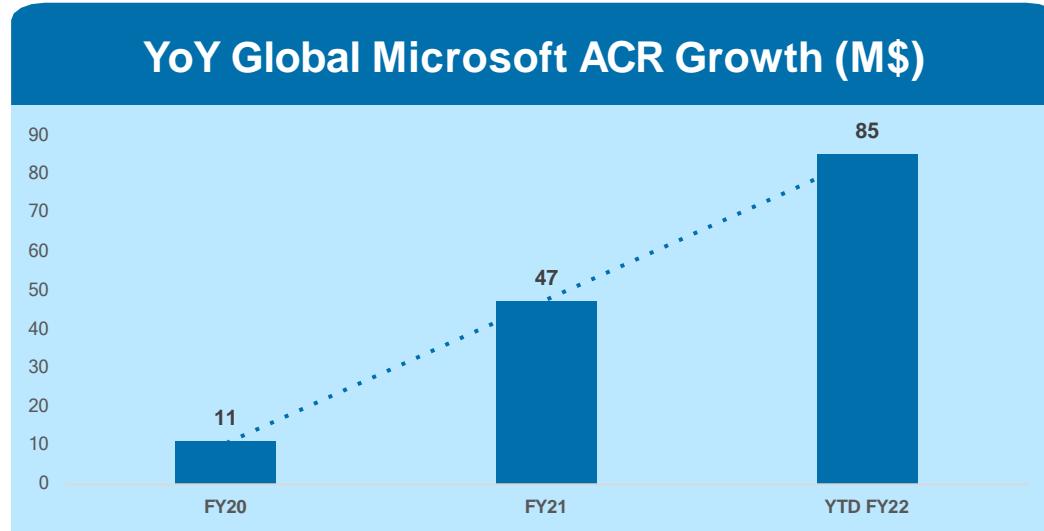

# CAPGEMINI FINANCIAL SERVICES | MICROSOFT | PARTNERSHIP GROWTH

- 
- The timeline features three wooden signpost icons, each pointing to the right and containing a year (2020, 2021, 2022). To the right of each signpost is a list of achievements for that year.
- 2020**
    - FS Focused CoE established
    - Baseline of 120M EUR Microsoft book of business in FSI
    - 3 Year Ambition to grow to 1.8B EUR Microsoft Cloud business
  - 2021**
    - Grew ACR by 4X, #2 SI in Banking worldwide
    - FS Microsoft Cloud book of business grown 70% with investment of 25 Azure Ninjas
    - Launch Partner for MC4FSI
  - 2022**
    - On-track to exceed 1.8B EUR cumulative bookings on MS Cloud platforms by Capgemini FY22
    - Innovation focused growth - DeFi, Sustainability, Intelligent Industry

# CAPGEMINI AND MICROSOFT GROWTH EVOLUTION OVER LAST 3 YEARS

# Global Footprint of our FSI Clients with Microsoft Cloud

# 2

## DELIVERING DIGITAL TRANSFORMATION

# DELIVERED DIGITAL TRANSFORMATION OUTCOMES TO BANKING AND CAPITAL MARKETS GLOBALLY IN FY'22

- Outcome-based Modernization of Portfolio of 3500+ Apps to Azure
- Enterprise-wide Cloud Security & Controls
- Close collaboration with Microsoft Industry Solutions Team

(Comenity Services LLC, now Bread Financial)

- Modernize Legacy Cards platform to Fiserv Omaha and Azure
- Enterprise Data strategy on Azure
- Cloud Centre of Excellence Build and Run

HSBC

- Microsoft 365 E5 Rollout for 250,000+ Bank users
- Collaboration and productivity initiatives on Power Platform

- Create a DLT-based Platform - for real-time, Post-trade operation across Euroclear clients
- Partnership with R3 Corda and hosted on Azure

- Intelligent process automation Chatbots and virtual agents with Azure Cognitive Services
- Collaboration and productivity initiatives on Power Platform

- Greenfield Temenos T24 Core Banking platform on Azure for Miami and Geneva
- Implementation of Model Bank with T24

- Leading the evangelization of Microsoft Viva for Employee Experience Transformation
- Expanded the Dynamics 365 program with integrations to Data Lake hosted in cloud, Medallia (Cust Feedback), Oracle CPQ (Quoting), SEISMIC (Sales Productivity), North52 (Rules Engine Territory Mgt.), SIEBEL (Legacy CRM)

- Intelligent Automation CoE to standardize Microsoft D365 & Power Platform
- Establish governance policies & compliance processes to empower Citizen Developers & LOB Dev Teams

# TRANSFORMATIONAL SOLUTIONS DELIVERED FOR GLOBAL INSURANCE WITH MICROSOFT CLOUD IN MS FY'22

(A Carlyle Group Company)

- Born-in-the-cloud Insuretech business on Azure enabled by Capgemini
- Vantage Azure Business Cloud foundation delivered with Guidewire and Majesco in weeks leveraging Capgemini IP and assets

- Design, build and implement an enterprise Data Lake (ADLS Gen 2) on Azure Cloud with different data lake zones.
- Azure Databricks cluster to run reusable data quality and transformation frameworks.
- Metadata driven data engineering leveraging Azure Data Factory (ADF) driven components

- Envision strategy for next generation Intelligent Insurance Data and Analytics platform
- Build a Data Modernization platform in Microsoft Azure Cloud to consolidate existing on-premise Reporting/MI/Analytics/Data warehouse landscape.

- Strategic Partner to large-scale modernization and simplification program of ~1400 apps to Azure
- Content Modernization (Opentext) and move to Azure

ASSURANT®

- Transformed Enterprise Risk Reporting with Power Platform and Power BI, replacing a manual process
- Azure cloud adoption for SSP (single Sourcing Platform)

- Guidewire Claims Transformation on MS Azure
- Guidewire integration with Azure Data Lake using ADF
- Deriving advanced claims insights and analytics

- Migrate and transform 15+ LoBs CRM solutions to Azure D365 and Power Platform
- Build Customer Data Hub
- Build Model driven Sales, Service, Marketing CRM modules and integrate with Power BI Customer Insights

- Modernize Core Insurance Platforms
- Guidewire and Duck Creek integrations with Azure and Power Platform

# FUELING INNOVATION THROUGH JOINT INVESTMENTS

## Web 3 | DeFi | Metaverse

- Microsoft & Capgemini** will accelerate the exposure, exploration and adoption of critical innovative technologies driving what's next For industry & society around the world
- Microsoft Investment** in Capgemini Applied Innovation Exchange (AIE) for a dedicated branded demo-space to co-host clients
- Focus on Web 3, DeFi, Financial Crime Protection, Sustainable Banking & Modernize Payments

## Capgemini Investment

## i3i Insurance hackathon:

- i3i Hackathon is an Insurance BU initiative at Capgemini to build knowledge capital through innovative solutions to real world problems
- 1000+ innovators participated to show case their talent on disruptive technologies
- Out of many technology stack options provided, 50% participants chose Microsoft technology stack
- 12 Teams made it to the grand finale. 60% teams (~50 Participants) chose Azure as their cloud platform
- Looking forward to work with Microsoft to drive more hyperscaler backed innovations through Co-sell and Microsoft focussed Industry solutions.

# CAPGEMINI'S COMMITMENT TO BRIDGING THE DIGITAL DIVIDE

# WE'RE HELPING TO CLOSE THE DIGITAL DIVIDE...

As a leader in digital transformation, we are committed to making the [Digital Revolution](#) an opportunity and benefit for all currently excluded members of society.

## OUR COMMITMENTS

- 5M beneficiaries will be supported by our digital inclusion programs by 2030
- Broader access to employment in the technology sector

# ...BY MAKING TECHNOLOGY AN OPPORTUNITY FOR ALL

We believe people should not be limited in work and life by a lack of digital skills and we should enable the next generation of digital innovators. A human-centered approach to technology that will make a difference.

**Digital Literacy** helps reduce the divide by supporting those who lack

**Digital Academies** train underemployed individuals on digital skills to increase their employment opportunities in the tech sector

**Tech4PositiveFutures** leverages technology to create innovative solutions address societal and environmental challenges

AS COLLABORATORS, WE LEVERAGE THE POWER OF PARTNERSHIPS  
TO AMPLIFY & ACCELERATE IMPACT

# Our offers on Azure Marketplace

## Azure APIM As a Service 4 week implementation

Capgemini Group

Capgemini to perform APIs assessment and automate provisioning of Azure APIM, APIs policy transformations with API Gateway and DevOpsification of end-end APIM across environments.

Capgemini's Azure API Management-as-a-Service offering helps to automate provisioning of Azure API Management and APIs leveraging our accelerators and industry standards like Swagger and OpenAPIs. It enables our experts to quickly help Financial Services Organizations to integrate their existing and new APIs with the Microsoft API Management services with minimum or no efforts.

### Highlights:

1. Infrastructure as Code: Leverages Terraform and Azure CLI for Infra provisioning and Service Endpoints for providing secured RBAC for Azure Pipelines to automatically provision the services in Azure.
2. Developer Friendliness: Developers can just focus on building APIs using their favorite languages and need not worry on authoring Infra as Code. The offering leverages Microsoft recommended Open-Source tools and utilities that generate required Infra as Code for creating required APIs and Operations in Azure API Management Service.

The screenshot shows the product page for 'Capgemini Azure APIM as a Service'. It includes the Capgemini logo, a price of \$65,000, a 'Contact me' button, and a 'Save to my list' button. Below the main title, there are sections for 'WHAT WE OFFER' and 'Key Highlights'. The 'WHAT WE OFFER' section describes the service as a flexible solution for API management, mentioning Terraform, Azure CLI, and Azure Pipelines. The 'Key Highlights' section lists several benefits, including infrastructure as code, developer friendliness, and support for multiple environments.

## Azure Landing Zone for FS 3 Month Implementation

Capgemini Group

Usual engagement starts with 4 to 6 weeks Landing Zone Architecture definition and continues with accelerated Landing Zone build, performed by our experts.

Capgemini's Landing Zone is a flexible solution based on architecture artefacts, accelerators and resources, developed by Capgemini FS, during numerous successful engagements with Financial Services Clients. All resources are modular, which enables Capgemini experts to create customized and adjustable Landing Zones, that meet the specific needs and design decisions of our customers. The accelerators and resources include and provide the following benefits: Secure: Use of hardened terraform modules that allows creation of Management groups, subscriptions, VNETs, vWAN, VPN Gateways, ExpressRoute, Azure monitor resources, Azure Sentinel, Azure AD Groups, RBAC Roles and many more; DevOps: readily available Azure DevOps and GitHub Actions pipelines, that include various stages, including modules deployment, integration testing and security gates. Additional pipeline capabilities are available for automating the full SLOC Policy as Code creation and assignment of Azure Custom/Built-In Policies and Initiatives. This ensures compliance with various regulatory frameworks, like PCI-DSS, SWIFT, HIPAA and others; Interoperable: integrates with third-party logging and monitoring tools (DataDog, Splunk, etc), various ITSM tools and Identity providers, like Okta and Google Cloud Identity; Standardized: ability to provision and manage Service Catalog to automate workflows, improve Developers experience and centralize control. We continuously adapt and improve our accelerators and resources to incorporate the latest features, follow best security standards and create new integrations and capabilities. Usual engagement starts

## Service Mesh Accelerator on Azure – Implementation in 6 weeks

Capgemini Group

Capgemini's Service Mesh Accelerator delivers a fully functional Kubernetes Cluster with Service Mesh of your choice – Microsoft Open Service Mesh (OSM) or Istio.

Ready To Use: Capgemini's Accelerator abstracts all complexity of a Service Mesh deployment on the Kubernetes Cluster. Getting started is easy allowing the customer to quickly realize the benefits of Service Mesh. All-inclusive package comes with intuitive UI that generates customized code, sample microservice app, CI/CD pipelines and Azure DevOps Board.

Rapid Start: The package contains everything you need to get started. With all the key design decisions already incorporated, customers can easily adopt Service Mesh in Azure. Creation and destruction pipelines are included in the package that gives them the flexibility of choice between Dev to Prod.

## Bank Guarantee Collaboration 6 week POC

Capgemini Group

Pricing \$65,000

Contact me

Save to my list

The screenshot shows the product page for 'Capgemini Bank Guarantee Collaboration 6 week POC'. It includes the Capgemini logo, a price of \$65,000, a 'Contact me' button, and a 'Save to my list' button. The page highlights the 'Bank Guarantee Collaboration 6 week POC' and mentions it is designed to empower employees to orchestrate end-to-end processes across a bank to review, comment, and finalize contracts.

Overview Additional information

Empowers employees to orchestrate end-to-end processes across your bank to review, comment, and finalize the contract, resulting in increased productivity and significant reduction of operational risk

Capgemini's Bank Guarantee Collaboration solution empowers employees to orchestrate end-to-end processes across your bank to review, comment, and finalize the contract, resulting in increased productivity and significant reduction of operational risk. The solution leverages Microsoft Cloud for Financial Services Collaboration Manager for the interaction among employees and the customers.

The UI is developed using Model Driven Power Apps and surfaced within Teams. The app lets you use meetings, chats, events, tasks, and notes to keep all your information in one place.

Key Highlights of Capgemini's Bank Guarantee Collaboration solution: Customer Portal: Customers can request bank guarantee digitally and upload the supporting documents. Collaboration Manager: The employee experience is delivered using Microsoft Teams and PowerApps with workflow capabilities which can be customized as per bank needs to enable collaboration between various employees. E-signature: Ability to request digital signature from the customers using

## Patient Centric Care Management 12wk implementation

Capgemini Group

Pricing A\$69,556

Contact me

Save to my list

The screenshot shows the product page for 'Capgemini Patient Centric Care Management 12wk implementation'. It includes the Capgemini logo, a price of A\$69,556, a 'Contact me' button, and a 'Save to my list' button. The page highlights the 'Patient Centric Care Management 12wk implementation' and mentions it provides enhanced patient engagement capabilities and empowers Care Team collaboration, thereby streamlining care program enrolment, planning, and monitoring, interventions, care gap detection and other complex workflows.

Capgemini's Care Management suite of offering includes solutions for more effective care planning, care coordination, real time medical management and member services.

It provides enhanced patient engagement capabilities and empowers Care Team collaboration, thereby streamlining care program enrolment, planning, and monitoring, interventions, care gap detection and other complex workflows.

It uses PowerApps and collab toolkit to provide an application to care managers and patients as they pass through different processes involved in care coordination. It encompasses a care management data model on dataverse and Power Automate flows that enable simplification of complex processes. It also leverages chatbots to support virtual interactions between patients/ families and care managers. Outreach and member segmentation is triggered by Azure Data Bricks jobs that detect high risk patients and initiate workflows automatically within PowerApps. Using Power BI dashboards, it shows adherence of patients to care programs and their effectiveness in delivering better clinical outcomes.

## SWIFT Alliance Connect Virtual Assessment and Onboarding in 6 weeks

Capgemini Group

Our new joint offering with Microsoft and SWIFT on real-time cross border payments enables FS organizations to rapidly deploy SWIFT connectivity and messaging infrastructure on Azure.

With accelerated Cloud adoption within the Financial Services Industry; FinTechs, Financial Institutions and established Banks look to move SWIFT workloads into the Azure Public Cloud.

SWIFT Alliance Connect Virtual, a unique solution that enables FS organizations to deploy the SWIFT messaging and connectivity infrastructure in Azure.

Capgemini partnered with Microsoft to deliver end-to-end managed services for SWIFT Alliance Connect Virtual.

Solution Benefits: Compliance - Azure provides various compliance and regulatory services like Microsoft Trust Center, compliance with SWIFT, PCI-DS, Azure Security Benchmark and Azure CIS Benchmarks

## Migrate Guidewire on Azure 3 Month Implementation

Capgemini Group

Containerize and Deploy Guidewire Insurance Suite to Azure Kubernetes Service

Our offer is focused on migrating containerized Guidewire Insurance Suite onto Azure Cloud. As part of this, we setup the necessary underlying Azure environment, which is comprised of AKS, Key Vault, VNET, etc. We utilize a set of accelerators and reusable resources, that may be customized to meet various customer requirements.

### Benefits:

1. Cloud-native: Our solution uses Terraform IaC to provision the underlying Azure infrastructure. The Guidewire Insurance suite applications run on a secured, best-practice Azure Kubernetes Cluster. Supported scenario is Guidewire portability to other Kubernetes environments, enabling for hybrid and multi-cloud scenarios.
2. DevOps: Fully automated deployments via CI/CD pipelines. This enables organizations to easily adopt fully deployed Guidewire stack in Azure.
3. Secure: The solution follows best practice Azure and Kubernetes configuration. Additionally, it integrates with Azure AD for administrative and service AAA. Traffic in encrypted at rest and in transit. Additionally, sensitive secrets are stored in Azure KeyVault. SWIFT, PCI-DSS and other regulatory compliance.
4. Flexible and Scalable: Running Guidewire in containers enables fast boot times and

## About Capgemini

Capgemini is a global leader in partnering with companies to transform and manage their business by harnessing the power of technology. The Group is guided everyday by its purpose of unleashing human energy through technology for an inclusive and sustainable future. It is a responsible and diverse organization of over 325,000 team members more than 50 countries. With its strong 55-year heritage and deep industry expertise, Capgemini is trusted by its clients to address the entire breadth of their business needs, from strategy and design to operations, fueled by the fast evolving and innovative world of cloud, data, AI, connectivity, software, digital engineering and platforms. The Group reported in 2021 global revenues of €18 billion.
